

MINNEAPOLIS GIFT & ART EXPO

Booth Flooring Examples

The floor of Hall E is concrete, so a floor covering of some kind is recommended and will make your space more inviting. You may bring in your own carpet, area rugs, removable tiles, or any other floor covering for your 10'x10' booth. The flooring does not have to cover the entire floor place, it can be centered within the space. Do NOT use self-adhesive tiles or duct tape on the convention center floor, the Minneapolis Convention Center requires you to use gaffer's tape.
